

A recap on 2015 and 2016*

Our dream

A sustainable world for generations to come

Our vision

Maximizing the use of renewables & Minimizing the waste of energy

Our contribution

Our climate, Our resources and Our ecosystems

510,000 tons CO2 saved
That's the equivalent absorbed by **25,500,000** trees

Carbon offset
By capturing 290 tons of carbon and methane gases from waste water together with Banpong Tapioca WWT, Thailand

342,000 mWh of renewable energy enabled
which prevents the burning of **7,315** truckloads of coal

43,000 buildings connected

6,100 communities served

48%
Net Promotor Score, or the share of active promoters amongst our costumers

25% of our global revenues come from **Cradle to Cradle** certified™ products

We have taken back the first materials from customer sites

80%
of own components completed with **Life Cycle Assessments (LCA)**

95%
of our electricity purchased in Europe from **renewable** sources

Global challenge: keep global temperature rise below 2°C

In the market, we are continuously improving the energy performance of our systems and solutions

In our own organization, inhouse programs for energy saving practices and operational excellence have resulted in higher energy efficiency

Global challenge Address resource scarcity

The growing scarcity of resources is one of the major challenges in the world. We believe a solution can be found in the circular economy

Certified Thermaflex B corps: certifying our benefit model

In May 2016, Thermaflex Central Europe became the 3rd B certified region in the Thermaflex group, next to North-West Europe and North-East Europe. B Corp is to business what Fair Trade is to coffee. Starting in 2006, the B Corp movement boards for-profit companies to meet rigorous standards of social and environmental performance, accountability, and transparency. The B Corp vision entails that one day all companies compete not only to be the best in the world, but the best for the world, leading to more shared and durable prosperity for society as a whole.

Thermaflex Latin America

As the 6th region in the group, Thermaflex LATAM achieved ISO 9001 quality management certification for continuous quality improvements in its customer focus, management, and processes

ISO 14001:2004

On top of that, both Thermaflex production locations in Europe have also achieved ISO 14001 certification through effective environmental management systems.

ISO 9001:2008

6 out of 8 regions in the Thermaflex group have achieved ISO 9001 quality management certification for continuous quality improvements in its customer focus, management, and processes.

USING BUSINESS AS A FORCE FOR GOOD

UNEP DES

In 2016, Thermaflex became a member of the United Nations Environment program for District Energy Systems. This way, we can accelerate the uptake of energy efficiency and renewable energy in the global energy mix, and develop practical solutions to a sustainable energy transition.

Realisation and Acceleration towards a Circular Economy

Unique NL collaboration initiative to create a circular economy through multidisciplinary innovation

Dutch Climate Coalition

Act signed to accelerate a climate neutral society in the Netherlands. Thermaflex commits to climate neutrality by 2050

B Corporation

In 2015, Thermaflex North-West Europe was honored as 'Best for the Environment', scoring in the top 10% of all certified B Corps in this impact area. For this we were recognized by Forbes.

Global Alliance for Buildings and Construction

In the aftermath of the COP21 climate conference in Paris, we joined forces in the Global Alliance for Buildings and Construction in order to scale up the implementation of ambitious actions towards the "below 2°C" pathway in the buildings and construction sector.

Green Deal

As one of the original pioneers signing the Green Deal, we committed on working together towards Transparency of Natural and Social Capital by learning and sharing experiences in the working group integrated reporting.
