

ThermaTape ThermaSmart® PRO SA

Accessories by Thermaflex®

Ultra-flexible tape made of direct extruded, closed-cell polyolefin foam with a colorless modified acrylate adhesives layer covered with a brown paper release liner

Technical Properties

Properties	Units SI	Values	Testing method
Physical properties			
Thickness	mm	2 (+/-10%)	-
Foam density	kg/m ³	18 - 40	-
Foam structure	-	Fine, closed-cells	-
Foam color	-	Anthracite	-
Thermal properties			
Application temperature range	°C	+5 to +40 (>15 for guaranteed optimal adhesion)	-
Maximum service temperature	°C	+95	-
Minimum service temperature	°C	-20	-
Other			
Shelf-life	month	12*	-

*At 20 °C and 50 % relative humidity

Availability

- Standard product dimension 50mm x 15m x 2mm
